

- JORGE I. GUIER, *Projectable reduced f -rings admitting elimination of quantifiers*.
Centro de Investigación en Matemática Pura y Aplicada, Escuela de Matemática, Universidad de Costa Rica, 11501 San Pedro, San José, Costa Rica.
E-mail: `jorge.guier@ucr.ac.cr`.

In this talk, I will give the characterization of all projectable and divisible-projectable reduced f -rings satisfying the first convexity property and admitting elimination of quantifiers, in the language of lattice-ordered rings with the divisibility relation, the radical relation associated to the minimal prime spectrum, and the local divisibility relation.
